Pigeon Feather is a lightweight software application whose purpose is to help you check out the current weather conditions for a given location. You can deploy it on all Windows versions out there. The tool is portable so you can store it on pen drives or other removable devices and carry it with you all the time. Clean and simple design You can find the utility running quietly in the system tray without disturbing your work. A right-click on its icon gives you access to the available configuration settings. A help manual is not embedded in the package. However, you can set up the dedicated parameters on your own because they look easy to work with. View weather

reports Pigeon Feather offers you the possibility to set up a new location by entering the ZIP code. In addition, you can make the application show the temperature in Fahrenheit or Celsius values, display the distance in kilometers or miles, reveal the wind sped in kilometers per hour or miles per hours, as well as indicate the pressure in millibars or inches. The program is able to show weather reports with details about the current temperature, suggestive image, sunset and sunrise time, temperature how it feels like, wind speed, wind direction, humidity, visibility, and pressure. Double-clicking on the tray icon brings to your view the weather report on the fly. Tests have pointed out that Pigeon Feather brings tasks to an end quickly. It remains light on system resources so the overall performance of the

computer is not hampered. On the downside, it has not benefitted from an update for a long time so you may come across all sorts of bugs and issues on newer operating systems like Windows 10 and 8. Trial Version : Pigeon Feather Free Trial Version has some features which are not in the full version. The trial version has 6 weeks validity. This means that you can try it out for 6 weeks and use the software during that period but it will show a message in the tool after the trial period ends that the trial has ended. This tool is a portable version so the software uses very less system resources and has very low system requirements. Pigeon Feather works on all systems Windows XP, Windows Vista, Windows 7, Windows 8, Windows 8.1 and Windows 10. The free version is a trial

version so it is free for the first 3 days and after that you need to purchase it to continue using it after the trial period is over. For any questions please contact us at : support@basicsoftwaretools.com
